REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or make obvious a failure sensing device of a vehicle control system having a control unit and generating a control target based on an operation request so as to control a driving state of a vehicle by manipulating a corresponding actuator using the generated control target, a processing unit connected to the control unit by a network generating and providing to the control unit additional information to be used to modify the operation request or the control target as necessary, said failure sensing device provided to the control unit with a smaller control load and includes an output portion outputting information to the processing unit with a smaller control load, a receiving portion receiving a response corresponding to information from the processing unit, and a sensing portion sensing a failure in the processing unit based on said information and said response.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
